

BOON HAN KOH
TEACHING EVALUATIONS

Research Fellow
Department of Economics
The University of Melbourne

Phone: +61 3 8344 8798 / +61 4 3276 3552
Email: boonhan.koh@unimelb.edu.au
Web: <http://www.boonhankoh.net>

Between 2011 and 2014, I have taught 13 courses as a tutor (teaching assistant). The table below summarizes the evaluations specific to my teaching that I have received from my students during these semesters.

Evaluation Criterion	# and % of students who agree or strongly agree
1. My tutorials in this subject have been well taught.	235 (of 259), 90.7%
2. The tutor's explanations were clear.	241 (of 260), 92.7%
3. The tutor promoted my learning in this subject.	231 (of 259), 89.2%

Selected comments from students are listed verbatim below:

- “Boon was a fantastic tutor. He made the classes enjoyable and provided great explanations of his own for all aspects of the course.”
- “The tutor is very dedicated in teaching which helps us a lot in the learning process and in tackling difficult issues.”
- “Boon is an excellent tutor. He is really committed to his students and takes a genuine interest in their learning. I'm very impressed and grateful for his effort this semester.”
- “My tutor's explanations are clear and he allows us to think through, clear our doubts before moving on. I think this helped me built up the interest of this subject.”
- “The tutorials have been very enjoyable. In particular the tutor I had thoroughly went through every question to ensure students understood the material. It is this attention to details and deep insight into material that has made tutorials stand out.”
- “As usual, economics tutorials are well taught and display a high level of competence by the tutor coordinating them. Boon Han continues to prove himself as one of the best in the faculty, speaking with clarity, prepared for every tutorial and is never hesitant to offer his support if anything he has said in the tutorial was not adequately substantiated for some reason.”
- “Boon knows his course material like the back of his hand. Very clear explanations and went out of his way to try to help students with problems they were having.”

Evaluations for individual courses are appended at the end of this document.

Comments about your tutorial

1. I thought Boon was an unreal tutor! So clear and encouraging and I just loved the tutes!
2. Boon was a fantastic tutor. He made the classes enjoyable and provided great explanations of his own for all aspects of the course.

3. The tutorials were a great time for me to practice the information learnt in lectures. Tutor's explanation made understanding the questions easier.
4. Boon is a great tutor. Going to every tutorial I was not very confident on the content but Boon gave me a better understanding of the topics each week.
5. My tutor did a really good job.
6. really well done. BOON is nice.
7. Tutorial is so good. He makes me understand everything even if I didn't go to the lecture.
8. The tutorials are good overall. Although there are many comments about how good is Xiao Ping as a tutor, I personally think Boon Han teaches quite well too.
9. Tutorials help me recap the week. There are hard questions there so theres more to think about and analyse. Tutor's explanations were very clear.

Comments about your tutorial

1. Tutorials are the saving grace to this subject. I would not have understood anything without the tutorial to explain what is/was going on.

2. practice more questions rather than ran through assignment
3. Great tutor, explains concepts well and makes sure he comprehensively covers the key parts of assignments.
4. Boon Han is a really good tutor! Also the initiative of a Facebook group is a good one - give me opportunities to know my peers who I seldom talk to during classes.
5. I like how we go through the previous week assignment in class but believe that the last 30 minute of classed should be better structured toward practical problems we may face in assignments or exams
6. When the tutorial exercise is long, having some focus would be grateful. I would like to see what information the tutor truly want us to know.
7. Good Tutorials
8. The tutor is very dedicated in teaching which helps us a lot in the learning process and in tackling difficult issues.
9. learnt more here than in lectures!
10. Boon is an excellent tutor. He is really committed to his students and takes a genuine interest in their learning. I'm very impressed and grateful for his effort this semester.

Comments about your tutorial

1. fantastic!!!
2. Tutes have been well conducted and are in line with the lecture material

3. My tutor was David Moreton and I think that he teaches the subject well.
4. My tutor-Boon Han is very good. He goes through the tutorial in detail and help us understand the subject a little more. He makes the subject sound more interesting.
5. Boon was a very good tutor and knew the content very well, however it was clear that inspiring discussion among the participants of the tutorial was needed.
6. Tutorials are conducted really well by (Boon Han Koh) which made me look forward to going for my tutorials on Thursday's mornings. My tutor's explanations are clear and he allows us to think through, clear our doubts before moving on. I think this helped me built up the interest of this subject.
7. Very effective tutor - his explanations were very clear and he structured his solutions well, it would have been happy to perhaps have some more tutorial questions to do independently at home
8. Boon is an excellent tutor! I learnt majority of the course through his explanations
9. Boon is a great tutor. Always willing and happy to help. he's calm, collected and enthusiastic.
10. Boon's tutorials were absolutely fantastic. His explanations were very clear, and his tutorials REALLY helped my understanding of the course. It was really good how he would answer my questions about maths, even though they were outside of the course. Perhaps put his tutorials, and definitely his consults (or at least his Thursday 10am tute and Thursday 1pm consults) in bigger rooms, just because of the demand for them. The point of improvement I would have for Boon is to just keep doing what your'e doing: keep mulling over the course and figuring out how you can teach it even better.
11. Boon Han has been extremely clear in his teachings and consistently ensured students understood his explanations.
12. The tutor gave very clear explanations which helped me gain an understanding of the course material.

Comments about your tutorial

1. logical and clearing explaining on every study point. very helpful.
2. well prepared

3. Key takeaways for tutorials would be useful, ie key concepts for the week. Also, if its not too difficult setting out the model in the question would be very helpful when lecture notes are not on hand.
4. In a number of tutorials, the tutor couldn't cover all of the questions required in the sheet. Reduce questions if tutors are facing these problems, because the tutor spoke too fast as well in order to try and finish the questions. It was hard to catch up with the tutor when he spoke too fast. I find it difficult to learn
5. Very comprehensive and useful.
6. The tutorials have been very enjoyable. In particular the tutor I had throughly went through every question to ensure students understood the material. It is this attention to details and deep insight into material that has made tutorials stand out.
7. n/a
8. As usual, economics tutorials are well taught and display a high level of competence by the tutor coordinating them. Boon Han continues to prove himself as one of the best in the faculty, speaking with clarity, prepared for every tutorial and is never hesitant to offer his support if anything he has said in the tutorial was not adequately substantiated for some reason.
9. The tutes are very good and Boon han is a good tutor

Comments about your tutorial

- the tutorial is not over-crowded.

2. I had Boon Koh as my tutor. I thought he was a very good tutor, explaining topics confidently and clearly. While he did talk very fast, he did check the class was up to speed regularly and to be honest, I don't think he could have gone any slower and still gotten through all the material in most tutes. I also went to see two other tutors, whose names escape me, but they were also quite good (but not as good as Boon)
3. boon han koh was a very good tutor, although I did not understand some of his explanations in class he tried very hard to explain them to me again in consults
4. Boon knows his course material like the back of his hand. Very clear explanations and went out of his way to try to help students with problems they were having.
